

IISHF Regulations 2017 Men European Championships

§18.16

The Junior European Championships shall take place each year. The Men European Championships shall take place only every two years.

IISHF Working Meeting on Saturday February 25, 2017 in Kiev, Ukraine

#4 Proposals from Denmark

- 1) Denmark proposed that the Men European Championships from 2018 should be hosted every year (again). For small countries it's absolutely essential that the Men European Championship take place every year. The best Danish players need to play international games with the national team every year otherwise Denmark will very likely close our Men National Team. At the AGM 2018 Denmark wants to have a vote about this point.
- 2) Denmark will invite other countries to play a Nations Cup in Gentofte (Copenhagen) in Denmark. It will be planned in cooperation with those teams that are willing to come and play. Denmark also encourages Junior National Teams, Select teams or new countries to participate. The following response was given by the presents NMA's. Germany and Switzerland not able to take part in 2017 because their calendar is already fixed but they were positive about future participation. BISHA had already supported the proposal and Austria, Netherlands and Ukraine would consider participating.

Vote for IISHF AGM 2018

§18.16

The Junior European Championships shall take place each year. The Men European Championships shall take place ~~only every two years~~ each year.
