

A player cannot play in the Veterans European Cup if he is also playing within another IISHF class A event within the same calendar year.

A player cannot play in the Veterans European Cup if he is also playing within a domestic (National) A event ore a domestic (National) A league ore 1 Division (Best division national) within the same calendar year.

Thus a player who shall play in the Veterans European Cup cannot play in another class A event in the same calendar year.

In other words, you are either a veteran ore a A Player (Pro player) you can't be both. Veteran is for the retired. Thes is an urgent rule and a wery important one.

With Best Regards

Michael Lauritzen
